A LITTLE ABOUT US

WHAT'S OURS IS YOURS

Our story began in 1976, when we began designing and manufacturing office furniture, and although we've now grown into one of the largest furniture manufacturers in the world, we still remain an independent, family owned business.

All the things that were important to us in the beginning; our attention to detail, integrity, investment in people and passion for design, are still very much running through the veins of the business today.

OUR BRANDS

We have three global brands within The Senator Group. Each of our brands has its own individual personality, complementing each other to create an existing portfolio to choose from. Whatever your project, whatever your style and whatever you need, you'll find the solution within this brand family.

Senator

Innovation engineered

Allermuir

Anything but ordinary

Torasan

Beautifully efficient

SHOW AND TELL

This book is an introduction to Senator's portfolio of products and a guide to how you can make each piece your own. Read, research and be inspired, then come and experience the real thing. Comfort can't be chosen from a piece of paper.

thesenatorgroup.com

WE BEGIN BY LOOKING AT YOU

With every Senator design comes a great deal of thought. The design process begins way before pencil reaches paper, beginning with looking at you. We look at how you sit, reach, move and work to create a design which not only looks beautiful, but is a pleasure to use too.

Behind every Senator product is a fusion of intelligent thinking and innovative engineering to create products which support people whether they're focusing, collaborating, presenting or organising.

thesenatorgroup.com

Let's work together

Crossover Bench

UNINTERRUPTED WORKFLOW

Crossover Bench provides a highly flexible solution to suit the needs of the modern office. Optional cable flap access and simple elegant divider screens, have been developed to provide intelligent solutions to cabling and privacy issues.

Optional height adjustable top modules can be specified at any position within the bench to give total flexibility.

Crossover

THE SKY IS THE LIMIT

Crossover is based around a pair of horizontal beams which provide a robust structure and a continuous fixing method for all furniture elements. Legs, screens, wire management, work surfaces and accessories can be attached at any point along the beams regardless of desk module.

Let's work together

thesenatorgroup.com

Crossover

The Crossover beam system allows adjacent workstations to be linked therefore removing redundant structure.

Crossover has been developed to cause minimum impact on the environment, being 100% recyclable at the end of its life and made from 55% recycled materials.

Section Two

CORE DESKING

Core is a desking system that offers simplicity through form and function. It can be quickly and easily reconfigured and adapted to suit new demands, regardless of whether these are caused by expansion, reduction or remodelling.

018 Core Workstations

NEED IT DIGITAL?

A copy of this book, product rotations, high resolution images, CAD symbols and more detailed product information are all on our website.

thesenatorgroup.com

Core

PURE AND SIMPLE

Core is a versatile desk system with a fresh, clean aesthetic based around a horizontal beam construction, which provides structure and rigidity and allows for the fixing of the various system elements. The flexibility designed into the system allows Core to provide a comprehensive range of different applications.

Let's work together

thesenatorgroup.com

Core

Core is available as a four leg desk or a continuous bench using simple, cost effective, flexible components where legs can be shared wherever necessary. Desk screens further enhance the system and are available as a simple pinnable version through to framed system screens with tool rails, fabric and glazing options.

Core

Core has been developed to cause the minimum impact on the environment. The product has been designed for a maximum working life and whenever possible reclaimable materials are used.

Core is up to 100% recyclable at the end of its useful life and is made from 55% recycled materials.

Section Three

CHEMISTRY DESKING

NEED IT DIGITAL?

thesenatorgroup.com

The Chemistry range of workstations have been developed for modern working environments. Chemistry creates a stylish yet flexible solution which improves productivity and facilitates diversity for individuals and teams.

026 Chemistry / 034 Chemistry Tables /
037 Chemistry Height Adjustable

Chemistry

A NEW DESKING FORMULA

Chemistry Workstations can be configured as individual desks or as bench solutions that share components, allowing for the integration of partitions that form touch down workstations or meeting spaces. The range incorporates two leg styles and the ability to integrate sliding tops for ease of access to integrated cable management.

Chemistry

A CATALYST FOR CHANGE

It is widely recognised that the 'one size fits all' approach to office planning is no longer reflective of the way most businesses see themselves working in the future. Chemistry has been designed to incorporate a number of key elements that will facilitate the flexibility and diversity that many architects and clients are looking for.

thesenatorgroup.com

Chemistry

As the modern workplace evolves, there is a declining demand for the 'one size fits all' approach. Instead, workplaces require spaces that are flexible and collaborative, facilities that are efficient and streamlined, combined with an atmosphere that can be both formal and informal.

Let's work together

Chemistry

ERGONOMIC IN DESIGN

Chemistry Meeting Tables share the same frame as Chemistry Workstations for consistent design aesthetics. Options for in desk power and cable management provide practical features for professional environments.

thesenatorgroup.com

Chemistry

REACHING NEW HEIGHTS

Chemistry incorporates a height adjustable workstation solution allowing the user the option to vary their posture and stand whilst working.

Let's work together

thesenatorgroup.com

Let's work together

Chemistry

Chemistry features a back to back height adjustable bench leg option that allows the user to quickly set their optimum working height by means of a responsive manual adjustment or via a push button electronic mechanism.

Section Four

STORAGE & SCREENS

Universal Storage and Screens have been designed as a solution to the changing requirements in the workplace, where personal accessibility of storage and dividers of space are far more important to the active environments of today.

044 Universal Storage / 048 Universal Screens

thesenatorgroup.com

Storage & Screens

SCIENCE OF AREA DIVISION

Universal Storage and Screens have been developed in a different way to the traditional filing system to respond to changing storage and privacy needs. Open shelves, drawers, flipper units, doors and screens support a wide range of equipment, all of which can be incorporated into the design.

Let's work together

thesenatorgroup.com

Let's work together

Storage

With a variety of sizes, product options and finishes available, Universal Storage is a perfect complement to our full range of workplace solutions.

thesenatorgroup.com

Let's work together

Screens

Chemistry Screens, can be freestanding or mounted to workstations to enable personal privacy. They can incorporate tool rails that utilise Senator's universal range of desktop accessories and monitor arms that allow users to personalise their own workspaces.

A Little More About Us

OUR SERVICE TO YOU

XPRESS PROGRAM

Our customers and clients don't always want to wait and why should they? We offer Xpress programmes across all our three brands: **Senator**, **Allermuir** and **Toraseen**.

This means some of our most popular products can be ordered and received within 5-10 days depending on the product.

WE LIKE TO SUSTAIN™

As part of our commitment to sustainability, we have our own recycling business called Sustain™ which has two recycling centres in the UK. Through Sustain™ you can access a number of services including the collection and recycling of your waste packaging and recycle or remanufacture of your old furniture.

IT'S ALL IN THE PLANNING

Our sales teams are there to support you in the planning of your project and the interpretation of the client brief. We can assist with space planning concepts with provision of space plans using the latest technology to realistically recreate spaces to accurately visualise the product in its environment, creating and supplying CAD symbols as required.

A Little More About Us

IT'S YOUR WORKPLACE

WE CALL IT SETTINGS™

The future of the office can't be defined into one vision and that's the exciting prospect, but we can understand how spaces will evolve by understanding and being at the forefront of trends in our changing environment. People are the drivers but the influences around them interact to create new challenges and opportunities. Settings™ is a concept from The Senator Group which was developed to enable modern, flexible, efficient and cost effective workplaces for people that will facilitate new working practices, enhance collaboration, improve service delivery and act as a catalyst for change in the workplace.

CHANGING SPACES

The workplace has changed, is changing and will carry on evolving as the influences around us change. We have four generations co-existing in the workplace and the workplace and our home life are blurring mainly through the speed of recent technological changes. What is so fascinating for us not just as a furniture supplier but as an enabler of change is how we can facilitate the needs of people. Not to dictate but to be there to enable and house future change for our customers, clients and end users. We are passionate about what we call 'Settings™' which is a catalyst to support the changing needs of people and places.
