FREESTANDING & CLASSIC BATHTUBS

PERFECTLY DESIGNED IN SHAPE AND QUALITY – ENTIRELY “MADE IN EUROPE”

Modern interior design has elevated the bathroom to an oasis of serenity and relaxation. Knief & Co. are specialists in the manufacturing of acrylic bathtubs: Aqua Plus® meets the highest demands in regard to design, functionality and quality throughout its extensive collection.

Aqua Plus® harmonically integrates into individually coordinated design concepts and spatial situations. With its extraordinarily varied design vocabulary, the collection presents itself in the categories modern designs, traditional designs, special designs and classic designs to accommodate individual preferences in style. Pleasing and fresh designs, linear or curved, symmetrical or asymmetrical, freestanding or installed..., they all create a unique and aesthetically coherent atmosphere. And with their perfect ergonomics, they will fulfil every wish when it comes to personal comfort.

Aqua Plus® sets standards – in regard to design as well as to material and processing quality. To guarantee our rigorous quality standards, Knief & Co.'s Aqua Plus® collection is manufactured exclusively in Europe bearing the ISO 9001 quality management certificate in production. All Aqua Plus® bathtubs are made of cross linked Lucite® cast acrylic (compliant with EN 263). The fully imbued material is characterized by brilliant colour consistency, a warm and gentle surface feel, highest stability at minimum weight, as well as extreme durability. Lucite®-sanitary acrylic is UV-resistant and environmentally friendly due to its recyclability. The absolutely smooth non-porous surface structure reduces lime deposit and bacterial build-up, making Aqua Plus® tubs easy to care for and very hygienic. Scratch resistance is another advantage of Aqua Plus® tubs' premium material. In the unlikely event of damage, the bathtub is easily repaired and looks as good as new. All Aqua Plus® tubs are double-shelled and supra reinforced, resulting in an overall wall thickness of up to 45 mm. The outer and inner walls of freestanding models are firmly joined to form a homogenous tub body.

The complete Aqua Plus® collection including waste kits is LGA-certified. Due to the high material quality of Lucite®-sanitary acrylic and its specifically developed production technology, Aqua Plus® does not only fulfil EC standard EN 198, it exceeds it. Furthermore all tubs of the Aqua Plus® collection wear the CE conformity sign and so fulfil the standard of EN 14516. Knief & Co. grants a 10 year warranty on all Aqua Plus® bathtubs – another indicator of the excellent quality of the collection.

Knief & Co. was founded in 1979 and has become a valued expert in the specialized building sector. In regard to freestanding bathtubs, Knief & Co has over 20 years experience in the special acrylic production. Aqua Plus® freestanding bathtubs range has the biggest diversity in designs. With its accumulate know-how and quality, Knief is recognized as the market leader for acrylic freestanding bathtubs made in Europe.

*Optionally also available with integrated bath filler & Click Clack | optionally also available with pop-up waste kit.

FREESTANDING SPAS

HARMONY FOR BODY AND MIND

Calm down, forget your cares, relax and focus on your body. Enjoy the combination of light, sound & sparkling air massage and add a bit of luxury in your freestanding bathtub. Rest, relax & revitalize yourself and strengthen your health after a hard working day. With one of Knief & Co.'s Aqua Spa® bathtubs you have your wellness oasis always close at hand!

Aqua Spa® is the epitome of pure design, functionality and processing quality. Revolutionary is that all Aqua Spa® wellness bathtubs keep their original, pure design. No parts are visible from the outside and the appearance of the original AquaPlus® bathtub is not changed. Like this all Aqua Spa® models fit into individually coordinated design concept without disturbing shells or visible outer parts.

Another striking point is the calmness of the air system. The only recognizable noise is the soft sparkling of water. Lay down and relax, enjoying a pearling massage while reading a book without disturbing noise and extruding water. 24 ultra-flat and ergonomically adjusted whisper air jets grants you a maximum bathing comfort and the integrated Ozone blower supports the quality of your bathwater. Additionally the skin is enriched with oxygen and the blood circulation is stimulated.

Enjoy your own music composition or your favorite radio station using the integrated sound system. Integral, non visible loudspeakers give you a perfect sound experience. You can choose your own program via remote control or having your MP3 player connected via WLAN.

Finally increase your bathing enjoyment by switching on the integrated ambience light. 20 mini LED integrated in a light chain or 2 power LED will colourfully illuminate your bathtub and transform your bathroom into an atmospheric space. Changing colour modes will enhance your senses to a maximum experience of luxury relaxing comfort.

Our Aqua Spa® wellness bathtubs are equipped with an automatic drying system. To dry the air nozzles and to avoid bacteria and off odors this function switches on automatically 15 minutes after emptying the tub and runs for 2 minutes. This ensures you a long lasting pleasure in using your Aqua Spa® bathtub.

All Aqua Spa® models are equipped with a dry running stop. Like this your bathtub is protected against system running without water in the tub.

All features are assessable by one remote control.

KEY FEATURES

- Ultra flat air jets for maximum bathing comfort
- All features operated by one remote control
- Relaxing pearl massage
- As silent as whisper
- Colour ambience light
- Ozone therapy
- FM function & WLAN interface for MP3, iPhone, iPod
- Integrated loudspeakers
- Automatical drying system
- Dry running stop
- Water drainage
- Protection level according to IPX5
- 3 years guarantee on system components
- TÜV/VDE approved

WELLNESS DESIGNS

SURRENDER TO THE UNIQUE BATHING EXPERIENCE OF AQUA SPA®

Our Aqua Spa® wellness system is capable of being integrated into plenty of our Aqua Plus® bathtub models. All electronic parts fulfil the demands of IPX5 protection rating standard. Knief & Co.'s Aqua Spa® collection is manufactured exclusively in Europe, fulfilling highest quality requirements. We grant a 3 years warranty on all wellness system components. Aqua Spa® bathtubs are made of best Lucite® sanitary cast acrylic (compliant with EN 263) fulfilling highest quality standards – same as Aqua Plus® bathtubs do.

Radio ON/OFF	MP3 ON/OFF
SKIP to next radio channel or next MP3 title	STOP/PLAY audio function
Volume control for audio function/DOWN	Volume control for audio function/UP

FEATURES & DETAILS

LIGHT

It is said that colour has an impact on the human body and soul and can optimize your energy level. Aqua Spa® wellness bathtubs equipped with ambience light will increase your bathing enjoyment and convert your bathroom into an atmospheric space. Choose between our 20 mini LED light-chain and 2 power LED. 10 changing colour modes of white, purple, blue, light blue, turquoise, green, yellow, orange, red and pink will enhance your senses to a maximum experience of luxury relaxing comfort. Blue is your favorite? No problem! With our integrated remote control you may stop the changing colours at your favored colour or switch on and off the light function. The light intensity of the power LEDs is even dimmable!

SOUND

"Without music, life would be an error" (Friedrich Nietzsche). Enjoy your own MP3 music composition or your favorite radio station using the integrated sound system. The set also consists of 2 integrated not visible loudspeakers which give you a perfect sound experience. You can choose your own program via remote control and having your MP3 player connected via WLAN.

WHISPER AIR NOZZLES

Listen to the silence! With the calmness of our Aqua Spa® system the only recognizable noise is the whisper of soft sparkling water. Lay down and relax, enjoying a pearling massage while reading a book without disturbing noise and extruding water. 24 ultra-flat and ergonomically adjusted whisper air jets grant you a maximum bathing comfort.

OZONE THERAPY

Switch on the integrated Ozone blower! Like this the air escaping from the nozzles is mixed with Ozone. With this function the quality of your bathwater is enhanced due the antibacterial and disinfecting effect of Ozone. Moreover the skin is enriched with oxygen and the blood circulation is stimulated. This option is automatically activated starting the system. Via remote control this option can be switched off and on.

AUTOMATIC DRYING SYSTEM

To dry the air nozzles from remnant water and to avoid bacteria and off odors our Aqua Spa® wellness bathtubs are equipped with an automatic drying system. 15 minutes after emptying the tub this function switches on automatically and runs for 2 minutes. This ensures you a unproblematic, long lasting pleasure in using your Aqua Spa® bathtub. The drying system may be also started manually by remote control.

DESINFECTION

Easy to care! Due to our automatic drying system no additional disinfection of the nozzles is necessary. Eventually into the nozzles entering water is blown out completely. So "cleaning" is taken care of itself.

PROTECTION AGAINST DRY RUNNING

Our Aqua Spa® wellness bathtubs are equipped with a dry running system to prevent the air system running without water.

REMOTE CONTROL

Keeping it simple! Our Aqua Spa® wellness bathtubs are easy to serve. All features are operable with one control. By its intuitive menu all options are easy to identify. To make it perfect the modern design of the remote control fits well to the pure appearance of our Aqua Spa® bathtubs. Surrender to the unique bathing experience of Aqua Spa®!

Create your individual Spa! We fulfil your desires and configurate your Spa according to your special needs and ideas (if technically applicable to the model).

INNOVATIVE SOLUTIONS

AQUA TECC® – INNOVATIVE SOLUTIONS ENTIRELY “MADE IN EUROPE”

Any business owner or manager will agree that business today is not what it was in years past. The new global economy has brought challenges which have changed the game so dramatically that not being at the top of the game is no longer an option.

Being the best in our market segment is not just something we strive for but is a necessity for business today.

There is no single silver bullet to achieve the success of any business. As OEM we mainly count our business partners within the industry and the wholesale sector. Over the years it has become more and more obvious that every client has unique needs and requirements and that no single canned solution or a once size fit approach will ever be the answer for everyone. For this reason we have found that creativity, flexibility and having the fingers on the Pulse of time, creating perfect and competitive solutions at highest quality level for our customers is our goal and the only way to do business.

Today we find innovative solutions to offer best suitable product and work as a team with our customers to ensure each and every project is a success.

So what is our speciality? Our speciality is doing whatever is necessary to ensure the success of our customers' businesses, meeting their demands and setting new standards at the highest quality level.

Our products are entirely made in Europe, exceeding all known quality norms. Our manufacturing policy is simple: create a perfect product! This policy is being hold with rigorous accuracy. We are specialist in thermo formed, freestanding acrylic bathtubs, 100% made of cross linked sanitary acrylic.

Under our brand of Aqua Tecc® we continuously develop and enhance our manufacturing processes and our products to achieve pristine and competitive results. All our acrylic products are equipped with Aqua Tecc® supra reinforcement to grant maximum stability. As worldwide single manufacturer we offer zero-tolerance-accurate horizontal rim. Our invisible jointing technology makes possible an invisible joint without any coating of the bathtub. Moreover Aqua Tecc® brings forward one of a kind product developments like our model Duo, showing the first really freestanding combination of a bath and a shower or our vast range of ultra-flat shower trays with modern flush-to-floor frame-technology.

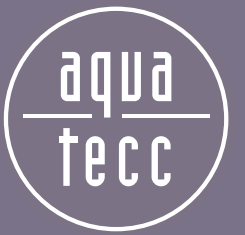

Make your choice! Take one of our successful Aqua Plus®, Aqua Spa® or Aqua Tecc® range products or create your individual product. We are your competitive partner! Whatever you prefer we make your wishes come true!

KEY FEATURES

- Made in Europe
- ISO 9001
- Solid and homogenous surface
- 100% hygienic and durable
- Stain-, shock- & chemical resistance
- Easy to care and repair
- K-STONE mineral cast
- Made of Lucite® double-shell sanitary acrylic
- CE conformity according to EN 14527

DUO

FREESTANDING BATH & SHOWER ARRANGEMENT

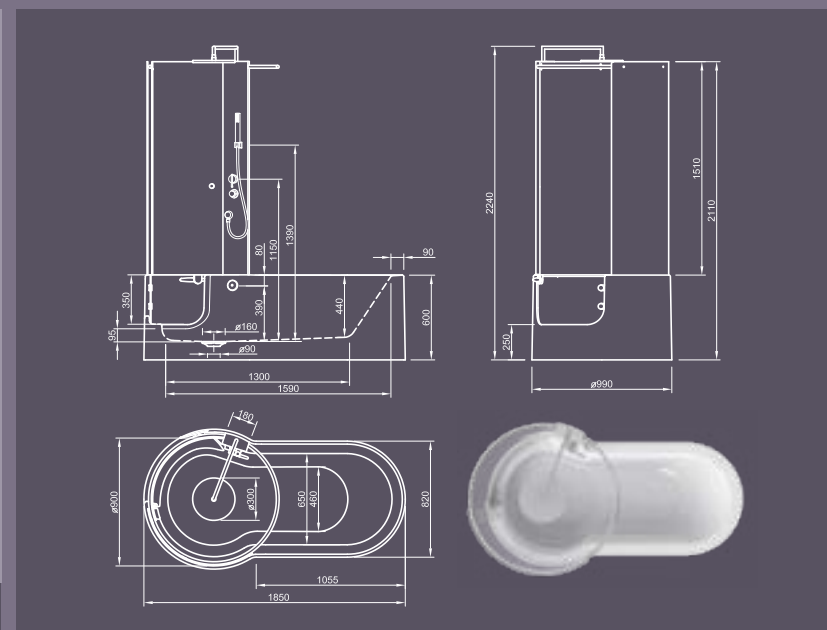

Duo is really one-of-a-kind! With this unique product design we created a 100% freestanding bath & shower combination. Choose any position in your bathroom. This model does not need any wall fixation, though absolutely fulfilling the luxury comfort of a freestanding bathtub and every design and demand of a modern shower cabin. An utmost convenient, nearly floor even door opening allows a very comfortable entry without the need of stepping over the bath rim. Shockproof security glass walls are easy to care. The K-Stone made bathtub is solid and homogenous and therefore 100% hygienic and durable. Furthermore it is easy to care and repair bearing characteristics like chemical-, stain- and shock resistance.

SHOWER TRAYS

ULTRA FLAT & FLUSH-TO-FLOOR

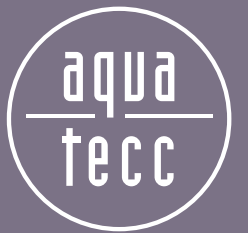

Since the beginning of common times mankind has been purged by flowing water over their head. Modern bathrooms become a living space with individual character, combining useful everyday life components with homelike interior design. Nowadays life is unthinkable without a shower.

Wake up and enjoy a refreshing douche in the morning or wash away your sorrows and relax in the evening. As individual you are, as individual are the dimensions and options of our ultra-flat shower trays. With our modern Aqua Tecc® technology we offer a variety of 18 aesthetic sizes for the flush-to-floor shower area setting new standards in size and versatility. Additionally we serve our clients the choice of creating individual dimensions to fulfil their design dreams.

All sizes fulfil every aesthetical demand, are fascinatingly flat and easy to enter, bringing luxury and comfort to your bathroom. Starting with well-known sizes of 800 x 800 mm we also offer extra-large dimensions up to 1800 x 1000 mm. With so much space at hand you will make your shower an unforgettable experience. No matter if you enjoy your shower alone or together with Aqua Tecc® you combine comfort and spaciousness having more than enough room to fulfil a variety of individual needs.

Whichever size you prefer you can count on the elegance and high quality of Aqua Tecc® shower trays.

FEATURES & OPTIONS

Our Aqua Tecc® ultra-flat shower trays are made of best cross linked Lucite® cast sanitary acrylic meeting highest quality standards according to all valid norms as EN 263 and bearing the CE conformity label in accordance to EN 14527.

Aqua Tecc® shower trays have a absolutely smooth non-porous surface structure which reduces lime deposit and bacterial build-up and makes Aqua Tecc® shower trays easy to care for and very hygienic. Our shower trays have an overall thickness of 35 mm to 45 mm. The fully imbued material is characterized by brilliant colour consistency, a warm and gentle surface feel, highest stability at minimum weight, as well as extreme durability. Due to Lucite®-sanitary acrylic our shower trays are UV-resistant and environmentally friendly due to their recyclability. Scratch resistance is another advantage of Aqua Tecc® shower trays' premium material. In the unlikely event of damage, the tray is easily repaired and looks as good as new. All shower trays are supra reinforced.

Aqua Tecc® shower trays are easy and variable to install. Thanks to our included, elaborate flush-to-floor frame-technology it is simple to fit each tray to individual needs. The set consists of a stable metal frame, appropriate number of adjustable legs, sealing tape, panel for easy tile covering, all necessary parts for installation and naturally the acrylic shower tray as such.

EVOLUTION

TODAY'S SOLUTIONS FOR TOMORROW

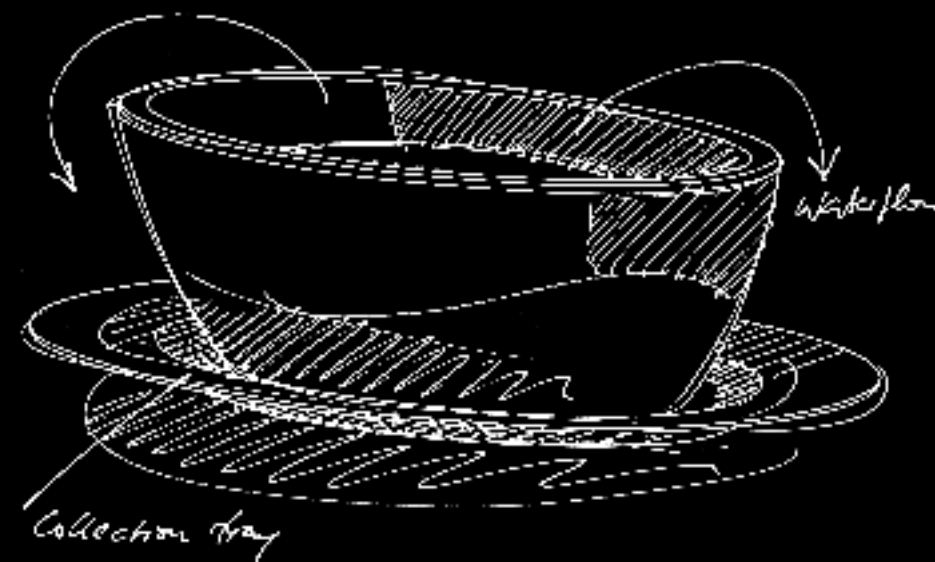

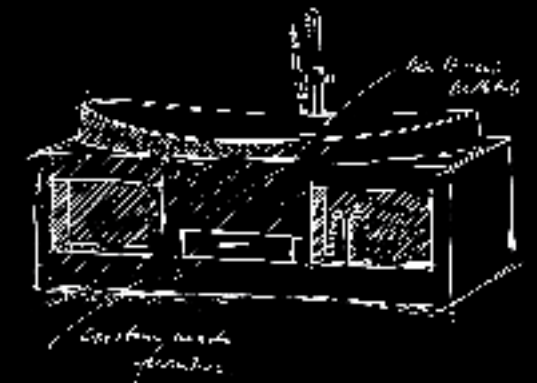

Evolution is any change across successive generations. In our case we talk about evolution being any change in successive products! As market leader in freestanding bathtubs made from best cast sanitary acrylic we hold this world caring in our hands.

Knief & Co. is making statements in perfection creating best quality and most elegant design to fulfil any desire. A part of our core business is product development. Being a step ahead in finding tomorrow's solutions is what makes us successful. Innovativeness at highest quality standards is what our customers are seeking for. We see our role as the extended workbench of our business partners. We face every challenge, create ideas and find solutions for every mission.

With our Overflow-Tub Loom we show the accuracy of our thermo forming and finishing processes of our bathtubs. Knief & Co.'s processing technology is the only technology worldwide

providing the perfection of zero-tolerance-accurate horizontal rim and invisible jointing with no coating for freestanding acrylic bathtubs.

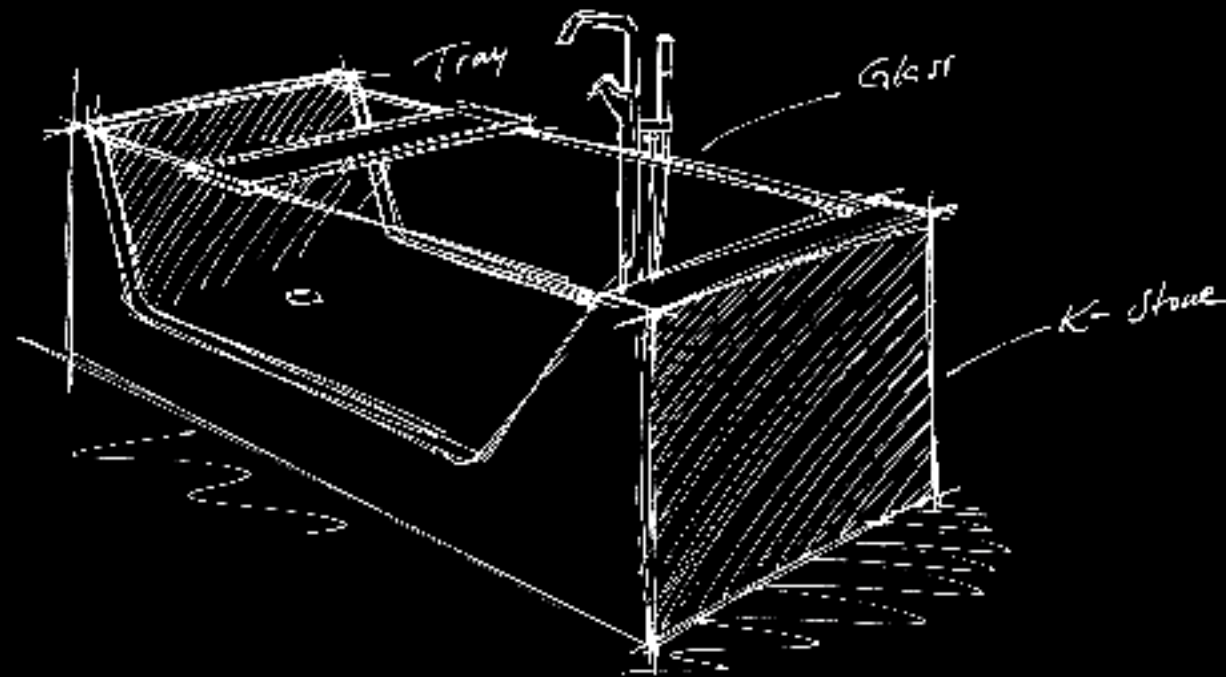

Knief & Co.'s evolutionary combination of Aqua Plus® or Aqua Spa® acrylic bathtubs and K-Stone mineral cast is a symbiosis of materials. We offer our customers endless and unique variations in design and colour and – at the end of the day – the creation of inimitable individual bathroom design. We make it special and evolution perfect!

K-STONE

INDIVIDUAL PRODUCTS

UNLIMITED APPLICATIONS & CONCEPTS

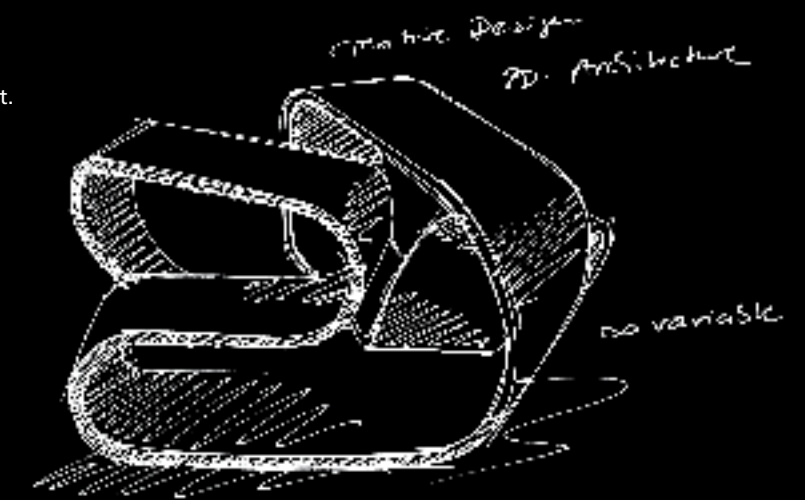

Customized product development implements the core idea of Evolution. We are your competent workbench! With our K-Stone mineral cast production we have the possibility of fulfilling each design wish, creating every product for each application. Whether the purpose is an individual architecture project or the creation of a commercial range: The variety in form, design and colour is nearly endless. K-Stone is not only esthetic it is also functional. The material bears many useful properties being:

- Waterproof: corrosion or swelling due to steam or moisture is not possible. The surface cannot be damaged by moisture, rot or mildew and liquids cannot penetrate it.
- 100% durable due to impact and shock resistance
- 100% hygienic, dirt repellent and stain resistant due to non-porous surface
- Chemical resistant
- Completely homogenous
- Thermoformable
- Pleasant to the touch
- Easy to repair and care
- Flame and heat resistant (for a short time over 200°C)

By using different grinding media with different grain sizes the gloss level of the surfaces can be adapted to your desired degree. Despite its resistance, K-Stone is easy to mill, cut, drill or grind. Like this individual lettering or logo can be milled into the material for example.

Besides acrylic, K-Stone is perfect for combination with other materials. Whether it is glass – like shown in our new models Look or Duo – wood, Plexiglass or non-ferrous metals, the diversity is huge.

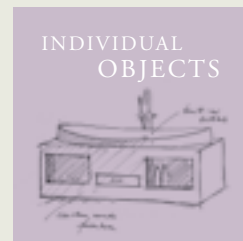

K-Stone is not only applicable in the sanitary sector. Also kitchens, laboratories, shops or other design projects provide a perfect space for application. There are plenty areas to use it, just use your imagination. K-Stone is quality work 100% made in Europe.
