# UNA QUALITÀ PROGETTATA E SOSTENIBILE

Design innovativo e produzione rigorosamente Made in Italy, caratterizzano l'offerta di Hatria, azienda presente sul mercato dagli anni '70. La tradizione lascia spazio all'innovazione proiettando l'azienda verso mercati internazionali, grazie ad una offerta ampia e diversificata di soluzioni che incontrano il gusto di un pubblico eterogeneo, attento alla qualità e al design dei prodotti. La certificazione del Sistema Qualità Hatria da parte del Certiquality-Certichim, secondo la norma UNI-EN-ISO 9001:2008, è un'ulteriore passo volto a garantire la massima performance dei nostri prodotti.

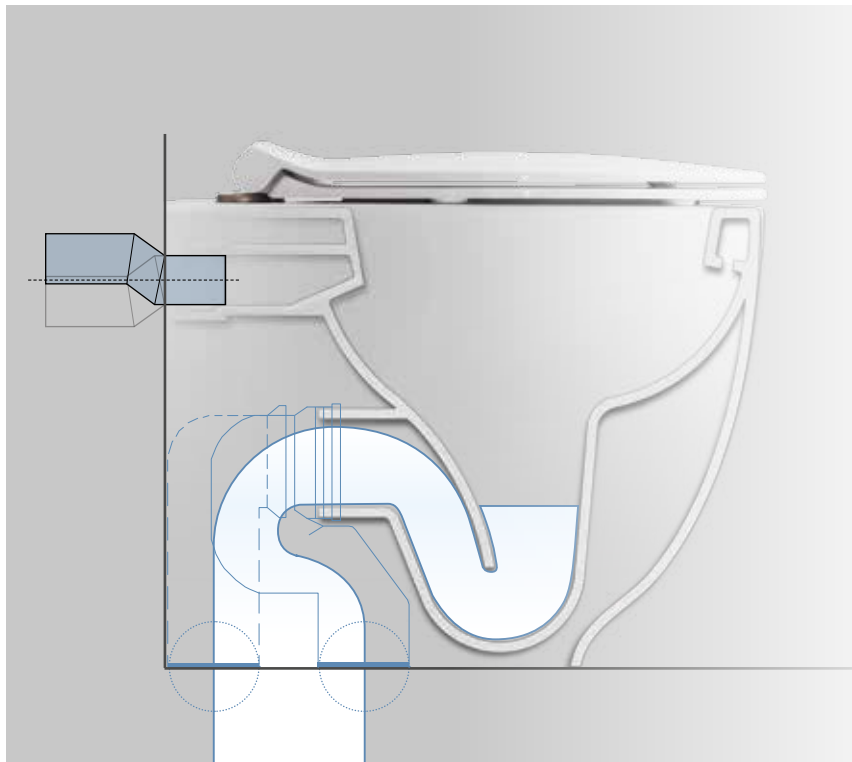

The Hatria range, present on the market for over 20 years, is marked by innovative design and strictly Italian-made production. Tradition makes way for innovation, and the company looks to the international market with a wide, diversified range of solutions that satisfy the tastes of a varied audience paying attention to quality and design. The certification of the Hatria Quality System on the part of Certiquality-Certichim, in accordance with the UNI-EN-ISO 9001:2008 standard, is a further step towards guaranteeing top product performance.

Ein innovatives Design und eine ausschließlich in Italien ansässige Produktion zeichnen das Angebot von Hatria aus, die seit mehr als 20 Jahren auf dem Markt ist. Die Tradition lässt Raum für die Innovation und bereitet die Firma dank eines breiten, diversifizierten Angebots an Lösungen, die dem Geschmack eines verschiedenartigen, auf die Qualität und das Design der Produkte bedachten Publikums gerecht werden, auf internationale Märkte vor. Die Zertifizierung des Qualitätsmanagementsystems von Hatria durch Certiquality-Certichim gemäß Norm UNI-EN-ISO 9001:2008 ist ein weiterer Schritt, um zu garantieren, dass unsere Produkte die beste Leistung bieten.

Un design novateur et une production rigoureusement Made in Italy caractérisent l'offre d'Hatria, est sur le marché depuis plus de 20 ans. La tradition laisse une place à l'innovation tout en orientant l'entreprise vers des marchés internationaux, grâce à une offre large et diversifiée de solutions qui rencontrent le goût d'un public hétérogène, attentif à la qualité et au design des produits. La certification du Système Qualité de conformité à la norme UNI-EN-ISO 9001:2008, que le Certiquality-Certichim a remise à Hatria, est un gage supplémentaire de l'excellence de nos produits.

La oferta de Hatria, empresa presente en el mercado desde hace más de 20 años, se caracteriza por su diseño innovador y una producción hecha exclusivamente en Italia. La tradición deja espacio a la innovación proyectando la empresa hacia mercados internacionales, gracias a una oferta dilatada y diversificada de soluciones que satisfacen el gusto de un público heterogéneo, interesado en la calidad y en el diseño de los productos. La certificación del Sistema de Calidad de Hatria por parte de Certiquality-Certichim, según la norma UNI-EN-ISO 9001:2008, es otro paso adelante destinado a garantizar el rendimiento máximo de nuestros productos.

Новаторский дизайн и производство исключительно «Made in Italy» характеризуют предложение компании Hatria - это компания, которая известна на рынке более 20-ти лет. Традиции уступают место инновациям, открывая для фирмы международные рынки, благодаря широкой и диверсифицированной гамме решений, способных удовлетворить вкусам неоднородной публики, обращающей внимание на качество и дизайн продукции. Сертификация Системы Качества Hatria на соответствие требованиям стандартов UNI-EN-ISO 9001:2008, проведенная Институтом Certiquality-Certichim, – это дальнейший шаг, направленный на обеспечение максимально высокого качества нашей продукции.

# IL DESIGN SEGUE LE FORME DELL'INNOVAZIONE

Un'idea di progetto a 360° è alla base della ricerca Hatria, che continuamente si evolve per offrire nuove soluzioni coniugando estetica e funzionalità: il design costruisce la forma intorno a sistemi che migliorano la qualità e le performances del prodotto. **PURE FIX®**, il nuovo fissaggio nascosto per vasi e bidet terra filo muro, presente nell'ultima collezione Hatria Le Fiabe, è l'innovazione che permette di avere finalmente anche per i sanitari terra un risultato esteticamente perfetto e pulito, in quanto privi di alcun fissaggio visibile. In combinazione con il **VASO TRASLATO** e il **BIDET APERTO** nella parte posteriore, ideali nelle ristrutturazioni per adattare impianti esistenti.

A 360° project idea lies at the base of Hatria research, which is evolving all the time to offer new solutions that are both beautiful and functional: design builds the shape around systems conceived to improve product quality and performance. **PURE FIX®**, the new concealed fixing element for back-to-wall WCs and bidets, presented in the latest Hatria collection, "Le Fiabe", is an innovative solution that offers a perfectly attractive, clean solution for back-to-wall bathroom fittings, because there are no visible fixing elements. In combination with the **SHIFTED WC** and the **BIDET OPEN** at the back, it is ideal for renovations, to adapt existing fittings.

Eine Projektidee, die alle Aspekte einbezieht, bildet die Grundlage für die Forschung von Hatria, die sich ständig weiterentwickelt, um neue Lösungen unter Kombination der Ästhetik und der Zweckmäßigkeit zu bieten. Das Design stellt die Form rund um Systeme dar, die die Qualität und die Leistungen des Produkts verbessern. **PURE FIX®**, die neue verborgene Befestigung für an die Wand anliegende Stand-Klosettbecken und -Bidets der neuen Kollektion „Le Fiabe“ von Hatria, ist die Innovation, dank der endlich auch die auf dem Boden stehenden sanitären Anlagen ein perfektes, sauberes ästhetisches Ergebnis ohne sichtbare Befestigungen bieten können. In Kombination mit dem **KLOSETTBECKEN MIT VERSETZTEM ABFLUSS** und dem hinten **OFFENEN BIDET** ist es ideal, um im Zuge von Renovierungen an bestehende Anlagen angepasst zu werden.

Une idée de projet à 360° est à la base de la recherche Hatria qui ne cesse d'évoluer pour pouvoir proposer de nouvelles solutions alliant esthétique et fonctionnalité. Le design construit la forme autour de systèmes qui concourent à améliorer la qualité et les performances du produit. **PURE FIX®**, le nouveau système de fixation de sol invisible pour cuvettes de WC et bidets au ras du mur fait partie de la dernière collection d'Hatria « Le Fiabe ». C'est l'innovation qui permet finalement d'avoir des sanitaires au sol avec un résultat esthétiquement parfait et propre, puisqu'aucun système de fixation n'est visible. Combiné avec la **CUVETTE DÉCALÉE** et le **BIDET OUVERT** dos au mur, il est l'idéal dans les rénovations pour adapter les installations déjà existantes.

La investigación de Hatria, que parte de una idea de proyecto 360°, evoluciona constantemente para ofrecer nuevas soluciones que combinen estética y eficiencia; el diseño crea la forma en torno a sistemas que mejoran la calidad y el rendimiento del producto. **PURE FIX®**, la nueva fijación invisible para inodoros y bidés de tierra y contra la pared, presente en la última colección de Hatria "Le Fiabe", es la innovación que permite que sanitarios de tierra también dispongan finalmente de un resultado estéticamente perfecto y limpio sin fijaciones visibles. Junto con el **INODORO VARIABLE** y el **BIDÉ ABIERTO** en su parte posterior, es ideal en reestructuraciones para adaptar instalaciones ya existentes.

Идея проекта на 360° лежит в основе научно-исследовательской работы компании Hatria, которая постоянно развивается, чтобы предложить новые решения, объединив эстетику и функциональность: дизайн создает форму систем, которые улучшают качество и достоинства продукта. **PURE FIX®** – это новая скрытая система монтажа приставных биде и унитазов, представленная в новой коллекции "Le Fiabe" компании Hatria. Являясь инновационной, она позволяет, наконец-то, идеально и чисто устанавливать наполную сантехнику без каких-либо видимых крепежных устройств. Сочетание **УНИТАЗА С ПЕРЕНОСНЫМ ВЫПУСКОМ** и **ОТКРЫТОГО** в задней части **БИДЕ** будет идеальным для проведения ремонтных работ с целью установки их в уже существующую систему.

## **PIÙ IGIENE, MENO ACQUA, ZERO BATTERI**

I nuovi vasi sospesi rimless FUSION, LE FIABE, ERIKA pro di Hatria grazie al sistema di risciacquo con bordo a vista, utilizzando soltanto una piccola quantità d'acqua, non presentano zone di deposito sporco e formazione di batteri. La pulizia del sanitario risulta così estremamente semplice e veloce. Realizzati secondo un concetto innovativo del sistema di scarico, per facilitare le operazioni di pulizia e manutenzione, questi vasi sospesi in ceramica senza brida mantengono comunque invariate le caratteristiche di installazione dei tradizionali vasi. Lo scarico ed una perfetta pulizia sono garantiti con soli 4,5/3 litri d'acqua.

The new Hatria rimless wall hung WCs FUSION, LE FIABE, ERIKA pro flushing systems come with visible edges and use only a small amount of water, leaving no space for dirt and bacteria to form. This makes it extremely quick and easy to clean. Designed with an innovative flushing system that facilitates cleaning and maintenance, these ceramic wall hung rimless WCs are in any case installed in the same way as conventional WCs. Flushing and perfect cleaning are assured with just 4.5/3 litres of water.

Die neuen hänge Klosetts rimless FUSION, LE FIABE, ERIKA pro von Hatria benötigen dank des Spülsystems mit sichtbarem Rand nur eine geringe Wassermenge, lagern keinen Schmutz ab und fördern die Bakterienbildung nicht. Die Reinigung der Sanitäranlage ist daher extrem einfach und schnell. Diese nach einem innovativen Spülanlagenkonzept, das die Reinigung und Wartung erleichtert, produzierten spülrandlosen wandhängenden Klosetts aus Keramik behalten in jedem Fall die Installationseigenschaften von traditionellen Klosetts bei. Die Spülung und eine perfekte Reinigung werden mit nur 4,5/3 Litern Wasser gewährleistet.

Grâce au système de rinçage à bride ouverte qui ne consomme qu'un petit volume d'eau, dans les nouvelles cuvettes suspendu rimless Hatria FUSION, LE FIABE, ERIKA pro, les salissures ne forment plus de dépôt, de sorte que les bactéries ne peuvent plus s'y loger. La cuvette est ainsi plus facile et plus rapide à nettoyer. Dotées de cette technique de rinçage innovante qui facilite les opérations de nettoyage et d'entretien, ces cuvettes suspendues sans bride s'installent exactement comme des cuvettes traditionnelles. L'efficacité du rinçage et une propreté parfaite sont assurées avec 4,5/3 litres d'eau seulement.

Gracias al sistema de lavado con borde accesible, los nuevos inodoros suspendidos rimless FUSION, LE FIABE, ERIKA pro de Hatria no presentan zonas de depósito de suciedad ni formación de bacterias con solo usarse un poco de agua. La limpieza del inodoro resulta por tanto extremadamente simple y rápida. Hechos según un concepto innovador del conducto de desagüe, para facilitar las operaciones de limpieza y mantenimiento, estos inodoros suspendidos en cerámica sin canal de lavado mantienen igualmente todas las características de instalación de los inodoros tradicionales. El desagüe y una perfecta limpieza se garantizan con solo 4,5/3 litros de agua.

Новые подвесной унитазы rimless FUSION, LE FIABE, ERIKA pro производства Hatria, благодаря системе ополаскивания с открытым бортиком, используют минимальное количество воды и препятствуют образованию грязных отложений и формированию бактерий. Уборка такой сантехники становится исключительно простой и быстрой. Изготовленные по инновационной концепции системы слива, что существенно облегчает их очистку и содержание, эти керамические подвесные унитазы без бортика сохраняют неизменными монтажные характеристики традиционных унитазов. Слив и абсолютная чистота обеспечиваются всего лишь 4,5/3 литрами воды.
