ZUCCHETTI. KOS

AGORA' BY ZUCCHETTI.KOS

design: Ludovica+Roberto Palomba

AGORA' , LA NUOVA COLLEZIONE ZUCCHETTI. KOS, RIMANDA A TIPOLOGIE E GUSTI CLASSICI.

La rubinetteria by Zucchetti coniuga il fascino della tradizione con nuove tipologie funzionali. La vasca ed il lavabo by Kos hanno un'estetica elegante e scultorea, lo stile senza tempo di un design classico si fonde con materiali di ultima generazione, come il Silkstone, innovativo e versatile, caratterizzato da un touch vellutato e da un effetto matt.

Agorà è un progetto 'ritrovato' e reinterpretato da Ludovica+Roberto Palomba. Classico nell'ispirazione, eclettico nella sua espressione. Una tradizione che continua nel segno della innovazione.

Ludovica+Roberto Palomba_designer: *"Agorà è un progetto riscoperto. Disegnato negli anni '30 e poi dimenticato sotto la spinta del moderno che avanzava nell'Italia del dopoguerra. Trovare negli archivi i vecchi disegni e rieditarli mantenendo la pelle originale come involucro delle attuali tecnologie è stato come imparare studiando. Il nostro passato, se vissuto senza complessi, con curiosità e umiltà, ci apre una visione sui valori eterni, davvero importanti. Abbiamo guardato indietro per guardare avanti con ancora maggiore consapevolezza."*

Elena Zucchetti: *"Volevamo rinnovare la proposta delle collezioni più classiche, dopo aver dato spazio negli ultimi anni a prodotti molto innovativi e design-oriented. Uno dei punti di forza del nostro Gruppo è dare una offerta diversificata e molto ampia, per soddisfare i gusti di ogni pubblico, garantendo sempre la massima qualità. E lo abbiamo fatto ripercorrendo le tracce della nostra storia."*

AGORA', THE NEW ZUCCHETTI. KOS COLLECTION, FEATURES CLASSIC SHAPES AND TASTES.

The taps by Zucchetti combine the appeal of tradition with new practical options. The tub and the basin, by Kos, are elegant sculpted to look at the timeless style of a classic design which blends with last generation materials like Silkstone, innovative and versatile, characterized by a velvet touch and matt effect. Agorà is a "recovered" project reworked by Ludovica+Roberto Palomba. Classic in its inspiration, eclectic in its expression. A tradition that continues through innovation.

Ludovica+Roberto Palomba_designer: *"Agorà is a rediscovered project. Designed in the thirties and then forgotten in the rush of modernity that took place in*

Italy after the war. Finding the old drawings in the archives and reworking them, keeping their original skin as a wrapping for today's technologies was like learning through study. Viewed without complexes and seen through the eyes of curiosity and humility, our past opens up a vision of eternal, truly important values. We looked backwards in order to look ahead with even more awareness."

Elena Zucchetti *"We wanted to restyle products in our more classical collections, after having made way in recent years for very innovative, design-oriented articles. One of our Group's strong points is a very wide diversified range for satisfaction of the taste of all kinds of consumers, while always guaranteeing top quality. We have achieved this by retracing our history."*

 ”

La robinetterie Zucchetti allie au charme de la tradition de nouvelles caractéristiques fonctionnelles. La baignoire et la vasque Kos offrent une esthétique élégante et sculpturale, le style intemporel d'un design classique s'exprime dans des matériaux de dernière génération, comme le Silkstone: innovant et polyvalent, caractérisé par un toucher velouté et un effet mat.

Agorà est un projet «redécouvert» et réinterprété par Ludovica+Roberto Palomba. D'inspiration classique, il est éclectique dans son expression. Une tradition qui se poursuit sous le signe de l'innovation.

Ludovica+Roberto Palomba_designer : «Agorà est un projet redécouvert. Dessiné dans les années 30 puis oublié sous la poussée du modernisme qui se développait dans l'Italie d'après-guerre. Découvrir dans les archives les vieux dessins et les rééditer en conservant leur enveloppe originale pour habiller les technologies actuelles a été comme apprendre en étudiant.

Notre passé, s'il est vécu sans complexes, avec curiosité et humilité, nous ouvre un horizon sur les valeurs éternelles, vraiment importantes. Nous avons regardé derrière nous pour pouvoir regarder devant nous avec encore plus de conscience. »

Elena Zucchetti: « Nous voulions renouveler la proposition des collections les plus classiques, après avoir fait place au cours de ces dernières années à des produits design et très innovants. L'un des points forts de notre Groupe est un offre diversifiée et très vaste qui nous permet de satisfaire les goûts de chaque public, en garantissant toujours une qualité maximale. Et nous l'avons fait en remplaçant nos pas dans les traces de notre histoire. »

“
Agorà, die neue
Zucchetti. Kos
Kollektion, nimmt
auf klassische
Typen und
Geschmack Bezug.
”

Die Armatur von Zucchetti verbindet den Charme der Tradition mit neuen Funktionstypologien. Wanne und Waschbecken von Kos haben eine elegante und plastische Ästhetik; der zeitlose Stil eines klassischen Designs verschmilzt mit Materialien der letzten Generation, wie Silkstone: innovativ und vielseitig, durch samtige Haptik und Matt-Effekt charakterisiert.

Agorà ist ein von Ludovica+Roberto Palomba ‚wiederentdecktes‘ und neuinterpretiertes Projekt. Klassisch in der Inspiration, eklektisch in seinem Ausdruck. Eine Tradition, die im Zeichen der Innovation fortgesetzt wird.

Ludovica+Roberto Palomba_designer: „Agorà ist ein wiederentdecktes Projekt. Es wurde in den 1930er Jahren entwickelt und dann unter dem Druck der Moderne, die im Italien der Nachkriegszeit ihren Einzug hielt, vergessen.

In den Archiven die alten Zeichnungen zu entdecken und sie neu aufzulegen, wobei die ursprüngliche Haut als Hülle der aktuellen Technologien beibehalten wurde, war so, als würde man lernen, während man studiert. Unsere Vergangenheit öffnet uns, wenn sie ohne Komplexe, mit Neugier und Demut gelebt wird, einen Blick auf die ewigen, wirklich wichtigen Werte. Wir blickten nach zurück, um mit noch größerem Bewusstsein nach vorn zu schauen.“

Elena Zucchetti: „Wir wollten das Angebot der klassischeren Kollektionen erneuern, nachdem wir in den letzten Jahren sehr innovativen und design-orientierten Produkten Platz gegeben hatten. Eine der Stärken unserer Gruppe ist ein sehr großes und abwechslungsreiches Angebot, um dem Geschmack jedes Publikums gerecht zu werden und dabei höchste Qualität zu garantieren. Und das haben wir getan, indem wir wieder in die Fußstapfen unserer Geschichte getreten sind.“

La grifería de Zucchetti combina el encanto de la tradición con nuevas tipologías funcionales. La bañera y el lavabo de Kos presentan una estética elegante y escultural, el estilo atemporal de un diseño clásico se funde con materiales de última generación, como el Silkstone: innovador y versátil, caracterizado por un toque aterciopelado y un efecto mate.

Agorà es un proyecto «recuperado» y reinterpretado por Ludovica+Roberto Palomba. De inspiración clásica y expresión ecléctica. Una tradición que continúa, caracterizada por la innovación.

Ludovica+Roberto Palomba_designer: «Agorà es un proyecto redescubierto. Diseñado en los años 30 y olvidado después bajo el empuje de la modernidad que avanzaba en la Italia de la posguerra. Encontrar en los archivos los viejos diseños y reeditarlos manteniendo la piel original como envoltorio de las tecnologías actuales ha sido como aprender estudiando. Si lo vivimos sin complejos, con curiosidad y humildad, nuestro pasado nos abre a la percepción de valores eternos y realmente importantes. Hemos mirado hacia atrás para mirar con mayor conciencia hacia delante.»

Elena Zucchetti: «Queríamos renovar la propuesta de las colecciones más clásicas, después de haber dado espacio durante los últimos años a productos muy innovadores y orientados hacia el diseño. Uno de los puntos de fuerza de nuestro Grupo es que presenta una oferta diversificada y muy amplia, para satisfacer los gustos de todos los públicos garantizando siempre la máxima calidad. Y lo hemos hecho recorriendo las huellas de nuestra historia.»
